

Welcome to FLL Robotics Club!

My name is Wendy Park and I will be the contact person for Robotics at Wilkerson. I want to remind you that our first meeting will be on September 13. Students are to meet in the library once all buses have been called. They should bring a snack. We are planning on creating the teams that evening. Please pick up your child in the back of Wilkerson at 5:30. Please remember to keep all day December 15 open for our FLL qualifier competition.

Because it is imperative that members attend the meetings, if they miss 2 meetings (unless they are sick and not in attendance at school) they will be dismissed from the team. No refunds of the membership fee will be given.

If behavior or problems working on a team become a concern, we will contact you. If the issue continues, your child will be dismissed from the team. We need all members to be focused on the challenges with their teammates.

If you have not yet paid your membership fee, please do so as soon as possible. We need those funds to pay for materials and memberships.

Please reply to this email so that I know all of the email addresses have been correctly put in the system. I will use this form of communication for all information and reminders. Please feel free to contact me with any questions or concerns about Robotics.

One last piece of info. I have attached an invitation to the FLL kick off at Space Center Houston. It looks really fun, but I already have a science club comitment that day. If you want to take your child, just use the info to register. I am sure it will be a great event! You will need a team number when you buy your tickets. Use the number 35674. If that is a problem, just email me and I will give you another number.

Thank you for your support of this adventure! I look forward to hearing from each of you
Have a great evening!
